HIGHLIGHTS

Experienced Patent Attorney

Peter specializes in strategic patent and innovation counseling for technology start-up companies.

Broad Range of Clients

His clients have included investors and companies in the clean technology, alternative energy, and life sciences sectors, as well as companies in the medical device, healthcare IT, and software industries.

EXPERIENCE

Peter Eng is a partner at Wilson Sonsini Goodrich & Rosati, where he specializes in strategic patent and innovation counseling for technology start-up companies. Peter leads the renewable energy practice within his department and advises clients on patent and intellectual property matters.

His clients include investors and entrepreneurs who develop innovative technologies in the clean technology, alternative energy, and life sciences sectors. In addition, Peter has worked with medical device, healthcare IT, and software companies throughout his career at the firm. His litigation and corporate experience allows him to assist clients at all stages of growth in establishing and protecting intellectual property positions.

Peter joined Wilson Sonsini in 1997.
