EXPERIENCE

Bo Chen is a patent counselor in the Shanghai office of Wilson Sonsini Goodrich & Rosati. Bo's practice focuses on patent prosecution and strategic intellectual property counseling in the mechanics and electronics industries. He has particular expertise in IP related to circuits, mobile devices, motor control, automotive parts, home appliances, and medical devices.

Prior to joining the firm, Bo was a partner at the patent boutique Beijing F&S IP Law. He also worked as an associate in China Sinda IP Agency Ltd, an IP-related judicial appraiser before court in China, and as an integrated circuit design engineer for Infineon Technologies in Germany.
