EXPERIENCE

Erin Boyle Anderson is a patent agent in the San Diego office of Wilson Sonsini Goodrich & Rosati, where she is a member of the patents and innovations practice. Erin assists with the preparation and prosecution of patent applications in the fields of biology and biotechnology.

Her graduate work focused on understanding the genetic and developmental factors regulating the migration of fin precursors in zebrafish embryos. This work involved using tools from cell biology, molecular biology, genetics, genomics, and the creation of Clustered Regularly Interspaced Short Palindromic Repeats mutants. Prior to graduate school, Erin also worked with *Drosophila* genetics and plant genetics and molecular biology.

CREDENTIALS

Education

- Ph.D., Development, Regeneration and Stem Cell Biology, University of Chicago, 2019
- B.S., Biological Sciences, University of Notre Dame, 2013

Admissions

- U.S. Patent and Trademark Office

INSIGHTS

Select Publications

Co-author with R. Ho, "A Transcriptomics Analysis of the *Tbx5* Paralogues in Zebrafish," 12(12) *PLoS ONE*, December 10, 2018
