Patents and Innovations

### EXPERIENCE

Karl Hudspith is an associate in the Washington, D.C., office of Wilson Sonsini Goodrich & Rosati, where he is a member of the patents and innovations practice.

Prior to joining the firm, Karl was a postdoctoral fellow at the Wilmer Eye Institute at Johns Hopkins University, where he worked in the lab of Dr. Mandeep Singh to develop a stem cell-based regenerative medicine treatment for inherited retinal degenerations. During his doctoral studies, he helped develop a next-generation sequencing based DNA diagnostic test for patients with inherited retinal degenerations, which was introduced into the UK's National Health Service (NHS) in Oxfordshire, United Kingdom.
