

Wilson Sonsini Advises InSilico Medicine on \$255 Million Series C Financing

CLIENT HIGHLIGHTS

June 21, 2021

On June 22, 2021, Hong Kong-based InSilico Medicine, a global leader in end-to-end artificial intelligence for target discovery, small molecule chemistry, and clinical development, announced that it has closed a \$255 million Series C financing led by Warburg Pincus. The financing included participation by current investors including Qiming Venture Partners, Pavilion Capital, Eight Roads Ventures, Lilly Asia Ventures, Sinovation Ventures, BOLD Capital Partners, Formic Ventures, and Baidu Ventures and new investors including CPE, Hillhouse Capital, OrbiMed, Mirae Asset, B Capital Group, Deerfield Management, Maison Capital, Lake Bleu Capital, President International Development Corporation, Sequoia Capital China, and Sage Partners.

Proceeds from the financing will be used to progress InSilico Medicine's current therapeutic programs into human clinical trials, initiate multiple new programs for novel and difficult targets, and further develop its AI and drug discovery capabilities.
