In this latest issue of *The Entrepreneurs Report*, we’ve compiled a range of data on venture financing transactions in which the firm was involved during the first half of 2021, with the objective of identifying relevant trends in activity and valuation levels for the U.S. venture capital industry in general. The publication also includes a feature on the recent launch of Neuron, a technology platform that streamlines, automates, and digitizes the typical legal processes along a start-up’s journey, as well as data from Beauhurst—a searchable database of the UK's high-growth companies—on UK equity investment in Q2 2021.
