EXPERIENCE

Andrew Collins is Of Counsel at Wilson Sonsini Goodrich & Rosati, where his practice focuses on representing high-growth technology companies at all stages of their business in matters related to formation and operations, equity arrangements, raising capital, corporate governance, and mergers and acquisitions. Andrew also has experience advising venture capital investors and private equity sponsors operating in various industries.

Andrew has represented clients operating businesses or investing in companies in a wide range of technologies, including financial technology, video games, autonomous vehicles, enterprise software, biotechnology and life sciences, digital health, medical devices, and insurance.

Before returning to the firm, Andrew was a senior corporate associate at law firms in Raleigh, North Carolina, and Dublin, Ireland. Prior to attending law school, he developed radar signal processing algorithms as an engineer at Northrop Grumman.

Andrew is practicing virtually in North Carolina, where he is licensed.
