## EXPERIENCE

---

Patrick Messenger is an associate in the technology transactions practice in Wilson Sonsini Goodrich & Rosati's Palo Alto office. He advises public and private companies, investors, entrepreneurs, and other clients on business transactions involving intellectual property, including licensing and technology transfers, joint ventures, mergers and acquisitions, and other strategic transactions that involve the commercialization of intellectual property or technology. Patrick is also a Certified Information Privacy Professional (CIPP/US).

Patrick's clients operate in a wide range of industries, including software, digital entertainment, hardware, video games, 3D printing, and autonomous vehicles.

Prior to joining the firm, Patrick was an associate at an international law firm in San Francisco, where he represented a variety of private and public companies in technology and intellectual property transactions.
