# WILSON SONSINI

Data Storage and Cloud

HIGHLIGHTS

Advising Cloud Computing and Storage Innovators
Just as Wilson Sonsini has been at the advent of other technology industries, we have represented the innovators in the cloud computing and data storage sector, including leading SaaS, IaaS, PaaS, DaaS and other online services providers.

OVERVIEW

Cloud computing and software as a service (SaaS) continue to advance as more businesses and consumers see the advantages of shared computing resources, centralized data storage, and on-demand access to applications. This upward trajectory is driving significant growth for a wide range of companies, from those that manufacture servers to those developing software solutions for enterprises and consumers.

Wilson Sonsini's attorneys have represented clients involved in all aspects of cloud computing, including:

- Publishers that offer SaaS solutions to consumers or businesses across a wide variety of applications
- Infrastructure as a service (IaaS), platform as a service (PaaS), and desktop as a service (DaaS) solutions providers
- Manufacturers of servers, data storage systems, and networking and communications equipment
- Cloud computing security software providers
- Cloud storage service providers
