EXPERIENCE

Dr. Jane Yang is a patent agent in the Century City office of Wilson Sonsini Goodrich & Rosati, where she is a member of the patents and innovations group.

Prior to joining the firm, Jane performed her doctoral research on developing novel drug delivery systems relating to peptide and protein therapeutics with a particular emphasis on polymer chemistry, materials characterization, bioconjugation, and protein stabilization. Jane has also conducted research on developing novel radiotracers to examine neurodegenerative diseases while working as a research technician at the Massachusetts General Hospital. As an undergraduate at Boston College, Jane worked on developing inorganic nanoparticles for heterogeneous catalysis.

CREDENTIALS

Education

- Ph.D., Chemistry, University of California, Los Angeles, 2023
- B.S., Chemistry, Boston College, 2016

Admissions

- U.S. Patent and Trademark Office

TECHNICAL FLUENCY

Biological Sciences and Biotechnology

- Bioconjugation

Therapeutics and Drug Discovery

- Drug conjugates
- Drug delivery
- Peptide therapeutics
- Small molecule synthesis
- Small molecules

Chemistry and Material Science

- Materials chemistry
- Nanochemistry
- Polymers
