Medical Devices  
Patents and Innovations

### EXPERIENCE

---

Michael Rizzuto is a patent agent in the San Diego office of Wilson Sonsini Goodrich & Rosati, where he is a member of the firm's patents and innovations group. He focuses on patent prosecution primarily in diagnostics, medical technologies, and optical and electrical stimulation.

Prior to joining the firm, Michael worked as a patent examiner for the U.S. Patent and Trademark Office, reviewing and examining medical technology patent applications in art unit 3792. He has received training from the USPTO on the standards and practices of applying 101, 112, 102, and 103 rejections, and in particular 101 rejections applied to AI and machine learning systems for the use of diagnostics.

Michael has also spent time shadowing physicians and sitting in on surgical procedures at Tulane Lakeside Hospital, identifying market needs and working with the Tulane Medical School Simulation Center to develop training tools, systems, and methods for medical students.

### CREDENTIALS

---

#### Education

- M.S.E., Biomedical Engineering, Tulane University, 2020
- B.S.E., Biomedical Engineering, Tulane University, 2019

#### Admissions

- U.S. Patent and Trademark Office

### TECHNICAL FLUENCY

---

#### Diagnostics and Medical Devices

- Biomedical devices
- Biomedical engineering
- Biosensors
- Diagnostics
- Medical devices

#### Engineering and Technology

- Biomechanics
- Machine learning
- Mechanical engineering
- Microfluidics
