

WILSON SONSINI

Israel

OVERVIEW

Wilson Sonsini is synonymous with ushering promising and innovative technology and life sciences companies through their business life cycle. Our experience at the heart of the Silicon Valley technology ecosystem working with the top innovators and entrepreneurs, and the funding sources that support them has positioned us to play an active role in the development of the technology ecosystems in Israel and other innovative business centers globally.

Wilson Sonsini's experience and comprehensive range of practices has earned us the opportunity to work with innovators on Israel-related and international matters. We represent private and public Israeli companies conducting business in the U.S. and U.S.-based companies and investors doing business in Israel. We also have strong ties to institutional and venture investors that finance Israeli companies looking to expand into, or from, the U.S.

Wilson Sonsini represents clients on Israel-related matters through all stages of their life cycle in the U.S., from U.S. launch, expansion and fundraising to U.S. partnerships, M&A events and IPOs. We also connect Israel-based companies and investors to our global network of capital providers, corporates and advisors, leveraging our experience in adding value to emerging companies and fostering the growth of technology ecosystems. In addition, Wilson Sonsini represents U.S. investors seeking to deploy capital in Israel.
