EXPERIENCE

Cassidy K. Evaristo is a patent agent in the San Diego office of Wilson Sonsini Goodrich & Rosati, where she is a member of the patents and innovations practice. Leveraging her robust background in biochemistry and cell biology, Cassidy provides strategic intellectual property expertise to clients across various sectors such as RNA therapeutics, antibody-drug conjugates, proteomics, sustainable technology for waste transformation, and innovative ophthalmic pharmaceutical products.

With over a decade of experience in patent prosecution, Cassidy is actively involved in day-to-day patent prosecution, including the preparation and prosecution of patent applications, patent claim drafting, and office action response drafting. Her work has facilitated significant transactions involving late-stage biopharmaceutical companies and companies operating in the gene therapy sector.

Additionally, Cassidy assists with conducting IP diligence and patent landscape analyses, aiding her clients in navigating the intellectual property landscape and securing their IP assets.

CREDENTIALS

Education

- B.S., Biochemistry and Cell Biology, University of California, San Diego
Entrepreneurship & Innovation Minor

Admissions

- U.S. Patent and Trademark Office

TECHNICAL FLUENCY

Biological Sciences and Biotechnology

- Antibody
- Biochemistry
- Bioconjugation
- Biologics
- Cancer therapeutics
- Cell biology
- Cell therapy
- Cellular immunology
- Genomics
- MicroRNA (miRNA) research
- Molecular biology

Therapeutics and Drug Discovery

- Antimicrobial agents
- CRISPR
- Drug conjugates
- Peptide therapeutics
- RNA interference (RNAi)
- Small molecules

Diagnostics and Medical Devices

- Bioinformatic

Chemistry and Material Science

- Catalysis
- Chemistry
- Polymers

Genomics and Data Analysis

- Computational biology
- Next-generation sequencing
- Sequencing
- shRNA

Miscellaneous

- Ophthalmology
