Cybersecurity

EXPERIENCE

Hattie Watson is an associate in the London office of Wilson Sonsini Goodrich & Rosati, where she is a member of the firm's data, privacy, and cybersecurity practice.

Hattie supports the team on a wide range of digital regulatory issues relating to privacy, cybersecurity, artificial intelligence, content and online safety, open banking and fintech, and data sharing. She assists with matters concerning EU regulations and UK laws, in addition to working extensively with local experts on global digital regulatory topics. She is also a member of Wilson Sonsini's artificial intelligence working group.
