CLIENT HIGHLIGHTS

December 19, 2025

On December 19, 2025, Cursor, the leading AI development platform, announced that it has signed a definitive agreement to acquire Graphite, a start-up that uses AI to review code. The financial terms of the deal were not disclosed. Wilson Sonsini Goodrich & Rosati advised Cursor on the transaction.

The transaction brings together best-in-class tools for creating, reviewing, and merging code in the AI age. Graphite will continue to operate independently, with the same team and product. According to Cursor, in the coming months the two companies will explore connecting their products, for instance with tighter integrations between local development and pull requests and smarter code review that learns from both systems.

The Wilson Sonsini team that advised Cursor on the transaction included:

M&A

Rich Mullen
Ryan Cooper
Hallee Moore
Valerie Lopez
Drew Downing

Technology Transactions

Christopher Paniewski
Andrew Poling
Morgan Kasenchak

Tax

Jonathan Zhu
Derek Wallace
Rob Sherrill

Data, Privacy, and Cybersecurity

Matt Staples
Daniel Chen
