CLIENT HIGHLIGHTS

October 8, 2026

On October 8, 2026, Catalyst, an artificial intelligence (AI) trading start-up, announced it has raised a \$30 million seed round led by Sequoia Capital. Additional investors include Jump Trading, PeakXV, Lux Capital, AntiFund, Coinbase, and Premji Invest. Wilson Sonsini Goodrich & Rosati advised Catalyst on the transaction.

Catalyst builds AI agents that translate natural language instructions into trading strategies. The company plans to extend the product to a broader retail audience.

The Wilson Sonsini team that advised Catalyst on the transaction includes [Jonathan Chan](#), [Utsav Lall](#), and [Kate Kirkpatrick](#).

For more information, please see [Fortune's article](#) about the transaction.
